

ELECTRONIC HOOK SWITCH ADAPTER FOR AVAYA PHONES.

REMOTE CALL CONTROL AND VOICE RECORDING

The Jabra LINK 20 enables remote Electronic Hook Switch Control (EHS) with Jabra wireless headsets and a wide range of Avaya phones.

This means that users will receive ring tone notification, answer and end calls, adjust the volume or even mute the call up to 350 feet away from their desks. The integration of handset and headset allows users to benefit from enhanced mobility and the ability to multitask while on a call. The wireless freedom improves worker productivity and ergonomics throughout the day. As a special feature, Jabra LINK 20 has a voice recorder socket which allows the user to record important conversations.

HOW IT WORKS

The Jabra LINK 20 is a plug-and-play solution that converts from the EHS standard used in Avaya phones to the DHSG protocol used in all Jabra wireless office headsets.

HANDSET-HEADSET COMPATIBILITY

The Jabra LINK 20 is compatible with a wide range of Avaya phones. For more details see the technical specifications on page 2 or visit www.jabra.com/avaya.

The Jabra LINK 20 can be used with the following Jabra wireless office headsets:

JABRA GN9350e

JABRA GN9125 FLEX

JABRA GN9125 DUO

JABRA GN9330e

GN Netcom is a world leader in innovative headset solutions. GN Netcom develops, manufactures and markets its products under the Jabra brand name.
